GenAI statement

Use of GenAI tools in coursework for ECMM424 – Computer Modelling and Simulation

*The University of Exeter is committed to the ethical and responsible use of Generative AI (GenAI) tools in teaching and learning, in line with our academic integrity policies where the direct copying of AI-generated content is included under plagiarism, misrepresentation and contract cheating under definitions and offences in TQA Manual Chapter 12.3. To support students in their use of GenAI tools as part of their assessments, we have developed a category tool that enables staff to identify where use of Gen AI is integrated, supported or prohibited in each assessment. This assessment falls under the category of **AI-supported.** This is because **students can ethically use GenAI tools to enhance their report structure or improve language quality, while ensuring originality of their work and acknowledging all AI usage.***

You can find further guidance on using GenAI critically, and how to use GenAI to enhance your learning, on Study Zone digital.

When submitting your assessment, you must include the following declaration, ticking all that apply:
